

Country Club of Miami Community Action Network

Membership Application

Dear Neighbors,

Four years ago, our County officials and Parks Department had plans to change the Country Club of Miami Golf Course that would have impacted ALL of us in a very negative way. We as residents rallied behind a CALL TO ACTION and made those same officials respond to our demands and stop that needless and ludicrous change.

Now we see that those same entities have allowed for our golf courses and facilities to begin a slow decline into disrepair and abandonment that will allow for another attempt to change configuration of our courses, or quite possibly offer CLOSURE as a solution. These scenarios are unacceptable and are being met with the same resistance as the Save Our Golf Course movement of four years ago.

We must continue to fight for our golf courses and ensure that our County officials and Parks Department know whom they work for... WE THE RESIDENTS OF THE COUNTRY CLUB OF MIAMI! Something must be done to stand up to those that would diminish our way of life and cause irreparable harm to our homes and community. We believe that we have found the way to do just that.

It is with great pleasure that we announce the creation of the **Country Club of Miami Community Action Network (CCM-CAN)**. This nonprofit organization will strive to protect our greatest public resources, sponsor civic engagement and ensure our quality of life in the Country Club of Miami.

To this end, we invite you to join our endeavor by becoming a member of the CCM-CAN. These initial memberships are available on an individual basis for **five dollars** each annually or **one hundred dollars** lifetime.

It is our hope that every home join with at least one member, and we recommend all adult members of the home take advantage of this opportunity and join as well, for we would like to have as many members as possible to prove our community's commitment to this cause and let those that would endanger our community's future know that a multitude of residents stand at the ready to oppose such actions.

We look forward to continued communication through ongoing meetings and discussions to highlight our community's pressing needs, upcoming events and our path forward.

Warmest Regards,
Founding Board of Directors
CCM-CAN
